Q3	<p>Please describe the following:</p> <ul style="list-style-type: none"> <li>• How the salesperson responded when you stated your interest in a tablet.</li> <li>• What questions they asked to understand your needs.</li> <li>• Please note if the salesperson led the interaction, or if you had to volunteer information to keep the conversation going.</li> </ul> <p>When I arrived to the store I saw two sales people, one was serving a customer and the other was behind the counter. I was not quite sure if they were doing paperwork or if the salesperson thought that I did not need help. Then the salesperson approached me after waiting for some minutes, they asked me what I was looking for. I explained them that I was looking for a tablet and the salesperson indicated me where the tablets were, so I had to ask some questions to keep the conversation going; I told them that I was looking for something light and with Internet access, so salesperson asked me about the usage I would give to the device and asked me if I would search on the Internet, read emails and share information on the social networks. Apart from that that salesperson did not make further questions. I had to lead the whole interaction.</p>
